

Job Profile: Product Associate, UI

The Company

About iXIGO

iXIGO is a travel search engine targeting Indian online & mobile consumers. iXIGO is positioned on the three pillars of comprehensiveness, neutrality & usability. Partnering with ALL the airlines, hotel chains, tour operators & large online travel portals, iXIGO aims to deliver its consumers complete real-time information on travel deals across multiple sources of information, delivered in an easy-to-use format. Consumers can compare deals across providers at one place while retaining a direct relationship with the vendor(s) of their choice. iXIGO is India's #1 vertical search for travel deals & services, a market worth more than \$2 Billion in 2008.

iXIGO was founded in 2006 by alumni of IIT Kanpur, INSEAD & Amadeus (Europe) with rich travel, technology & business experience. Our international board of advisors includes well respected senior professionals in the industry & academia and is backed by BAF Spectrum's seed investment fund.

In its short period of existence, iXIGO has blazed a trail of recognitions.

- India's top 6 internet start-ups at **Proto.in**
- **"Red Herring 100 Asia"** Awards 2007 Finalists
- **"Red Herring 100 Global"** Awards 2007 Finalists
- **NASSCOM Top 100 Innovators** of 2007
- India's 10 hottest startups of 2008 - **Business Today**

Role

We are looking for a UI developer who understands the web 2.0 psyche and has 1+ years of experience designing and developing rich UI interfaces for end-consumer oriented internet applications. You will be part of a young and multi-cultural team which builds a cutting-edge travel product in the B2C space.

Type of position: Full-time, Permanent
Location: Gurgaon, India
Experience: 1-3 years of rich-UI design & development

Technical skills:

Our products are based on emerging technologies & Web 2.0 frameworks. Evidence of strong technical skills in one or more of the following areas is required:

- Advanced Javascript, CSS 2/3, HTML, D/XHTML, XML, DOM Concepts
- Familiarity with Javascript Library such as jQuery would be a plus
- Experience with web frameworks like JSF/Struts is expected
- Rich & Dynamic Effects
- Good understanding of AJAX and its UI implications
- Sense for appeal & aesthetics from a usability perspective

- Cross-Browser compatibility issues
- Adobe Photoshop or Flash technology, a plus

The travel industry has a rapidly changing technology landscape and our products evolve quickly. Therefore, we strongly encourage creative people who are able to think “out of the box”. Past experience in the travel domain is considered a plus but not essential.
